

SLAG Committee Meeting Notes  
December 6, 2005

Members Present: Kokie, Claire, Cassie, Sam H, Jessica M, Mitch, Val, Lauren, and Kyle

Also present: Peg, Jessi James, Dawn Philipson, James, Bob, Anna

The Committee looked at the existing plans, recognizing that the plans had been generated a year previously. Members shared ideas about how the room should look and function.

- Gaming area is to be placed in the Northwest corner. Instead of bookshelves, the wall would house an entertainment system with places for the TV and games. The original plan called for a raised platform in this area. Members decided a platform may be a safety hazard. They'd like to have a sound dome over the gaming area if funds permit.
- The group decided on the placement of light switches and outlets. They also decided it would be nice to be able to dim the lights.
- SLAG members would like to be able to reuse the ceiling in the Program Room to save on expenses. They expressed interest in having 2 switches to control the lights.
- The original plan calls for carpeting. The group felt that teens would be hard on carpeting and hard surface floor should be installed throughout. Dawn will be bringing some samples of flooring to the next meeting. Area rugs will be purchased to soften certain areas of the room.
- The area reserved for the couch is 5ft by 2.5 feet

Also discussed was what the temporary space will look like. Cassie and Kyle commented that there are not very many outlets available. Peg will work on getting Internet connections in there. We will try to set the temporary space up to mirror the permanent space.
